

SLITTING REWINDING

WEB FLEX
Machines

Aligning with International Standards...

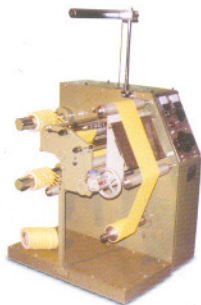

SLITTING REWINDING MACHINE

- ★ Circular knives & razor blade slitting system
- ★ Heavy duty frames for vibration-free performance for desired output
- ★ Hard-chrome plated Infeed Unit
- ★ Individual friction drive for duplex winder
- ★ Easy accessibility to all operational systems at operators ease for reduced downtime & make ready
- ★ Motorised DC drive
- ★ Optional Auto Web Aligner or Line Guiding for paper, foil & film converting industry

MINI SLITTER

- ★ Mini Slitter is useful for label making Industry for slitting narrow width labels
- ★ Single valve cantilevered construction, slitting system through razor blade
- ★ Available in various web widths
- ★ Minimum slit width 10mm
- ★ DC drive and controls, etc. with length measuring counter

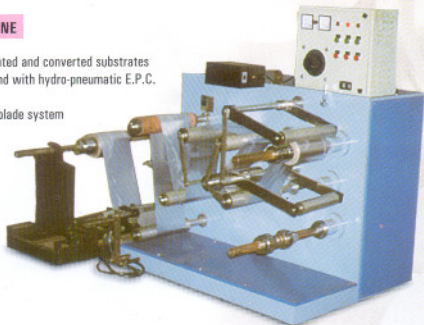

RE-REWINDING MACHINE

- ★ Useful for re-rewinding of House Foil, Fax Roll, Gift Wrappers, etc. to pre-set length from parent (jumbo) roll
- ★ Fabricated Construction
- ★ Simple unwind unit for parent roll
- ★ Hard-chrome plated infeed unit
- ★ Adjustable adaptor type core holders for shaft-less rewinding
- ★ AC / DC Drive with pre-settable length measuring counter and other control
- ★ Available in various web widths

INSPECTION REWINDING (DOCTORING) MACHINE

- ★ Inspection Rewinding Machine for quality control for printed and converted substrates
- ★ Single valve cantilevered construction, trolley type unwind with hydro-pneumatic E.P.C. (Edge Position Control)
- ★ Center slitting & side trimming arrangement with razor blade system
- ★ Inspection area with strobe for standstill viewing
- ★ Trim Collection attachment with blower etc.
- ★ Duplex function rewind system
- ★ DC drive and control

MANUAL CORE CUTTING MACHINE

- ★ Convertors are in constant need of different types of cores according to the size of prints or slitted material. Web Flex make Core Cutting Machine serves this purpose
- ★ Compact body, easily movable, safety guards for cutter & movable parts
- ★ Driven chrome plated spindle; maximum length 400mm
- ★ Maintenance & hassle free, easy cantilevered operation, perfect cut edges,
- ★ Single knife speedy production

PNEUMATIC CORE CUTTING MACHINE

- ★ Same purpose as Manual Core Cutting Machine but for bulk quantity of repeated core sizes
- ★ Driven polymer sleeved heavy duty spindle of 1000 mm length
- ★ Compact body, safe guards for cutter and movable parts
- ★ Pneumatically activated
- ★ Compressor Optional

ROTOGRAVURE
PRINTING M/C

WEB FLEX MACHINES - "THE LEADER"

- * Since 1987, Web Flex Machines have thrived and flourished amidst cut-throat competition
- * Made a mark in the National and International Market
- * Superior quality Flexible Packaging Machines
- * Suit different needs, budgets and constraints
- * Indigenously designed by well qualified Engineers
- * Reliable accurate and cost-effective
- * A league ahead of any existing reputed brand
- * Simple designs, user friendly technology, wide range
- * Alterations, additions and improvements in machines at any time as per your desire
- * Unparalleled after-sales service
- * Used and trusted widely in India and in many countries from Asia, Middle East & Africa
- * Installation & Commission anywhere in the world by Web Flex Machines representatives

WEB FLEX
Machines

Other Machines manufactured by us :- Rotogravure & Flexographic Printing Machine upto 8 colours, Dry/ Wet Coating Lamination Machine, Pouch Making Machine, Form Fill Seal Machine, Hot Melt Coating Machine, Foil Wash Machine (Erasing Machine), Etc.

Regd. Office : 202, Apollo Chambers, Mogra Lane, Old Nagardas Road, Andheri East, Mumbai - 400 069. India.
