

SURFACE SLITTING REWINDING MACHINE

**WEB FLEX
MACHINES**

Simplifying Packaging

Application:

This machine is suitable for Slitting such packing rolling materials as Paper, Polyester, Lable stock, BOPP, OPP, PET, seals, cigarette case seals, and PE, etc. This range was developed to handle particularly difficult, materials while ensuring maximum productivity. It is ideal for coated, metallised and carbonless papers, Non-woven and low tensile strength webs and can support a narrow slit width, The centre surface rewind drive combination provides the ultimate in tension control and reel wind quality. Surface winder for rolls from bigger width to smaller widths. This machine is equipped with auto edge correction, the main motor adopts variable DC speed regulating, brake tension controller on unwinding device, the advantages of compact structure, steadyrunning, easyoperation, etc.

Performance And Features :

1. This versatile unit provides flexible applications for variety material, such as paper, foil, films, laminates materials.
2. Trolley unwind stand with shaft.
3. Circular knife & Razor Slitting System
4. Easy accessibility to all operational systems at operators ease for reduced downtime and make ready
5. Optional Auto tension control, Air expansion shafts, Safety chucks, Edge guiding systems & Hydraulic material handing system at unwind.
6. Surface winding, pressure adjustable Or Centre winding with gap.
7. DC variable speed drive. The main motor adopts DC variable speed regulating.
8. Unwinding adopts brake tension and automatic deviation-rectifying (EPC).
9. Material rolling adopts dead-weight type surface rolling.
10. Ventury type trim collection arrangement with blower.
11. Individual friction drive for duplex winder

Technical Specification of 1000mm Surface Slitting & Rewinding Machine :

Working Width : 1000mm Roller width : 1050mm

Max. Unwind dia 1000mm

Max. Winding dia Surface 500mm

Slit width : 25mm upwards

Mechanical Speed : 180mtr / min

Working Speed Variable upto 150mtr / min.

Floor Space : 14ft x 12ft.

Power requird 15HP

Other Machines manufactured by us :- Rotogravure & Flexographic Printing Machine Upto 8 Colours, Dry/ Wet Coating Lamination machine, Pouch Making Machine, Form Fill & Seal Machine, Hot Melt Coating Machine, Foil Wash Machine, Doctoring Machine, Sheet Cutting Machine, Core Cutting Machine, Etc.

Regd Office : 202, Apollo Chambers, Mogra Lane, Old Nagardas Road, Andheri (E), Mumbai - 400 069 India.
